1 SCALES

SUBSCALE Subminimal

Streamline your
workflow

You can use this digital scale to weigh your coffee, pour the beans into your grinder, catch the grounds directly, then transfer them to your brew method. The result? A faster, more efficient workflow from start to finish!

- **Can weigh both coffee beans and hot liquids – up to 100 °C**
- **Splash-resistant:** perfect for RDT (Ross Droplet Technique)
- **Rechargeable via USB-C** (cable included)
- **Switch easily between grams (g) and ounces (oz)**
- **Auto shut-off** (after 20 seconds when empty, or 60 seconds with coffee beans)
- **Calibration function**

I want one!

Ref :
SUBMINIMAL_SS-01
RRP inc. VAT: €59,90

MINI BLACK MIRROR

Timemore

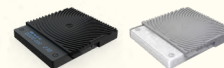

I want one!

Different modes, multiple functions:

- **Turns on automatically** when you set a cup down
- **Automatic timer starts** with the first drops
- **Flow indicator** for a consistent pour
- **Automatic tare** when you remove and replace a cup
- **Protective silicone mat** – designed with ridges to channel splashes, and reversible for use as a portafilter stand
- **Long-lasting battery:** 20 hours
- **Rechargeable, cable included**
- **Ultra-compact design:** 10 x 11.4 x 1.6 cm

Ref:

Black : TME_IF11180066

White : TME_IF11180067

RRP inc. VAT: €69,00

SMART SCALE 3

Brewista

The ideal scale for espresso – and more!

The Smart Scale III is designed with espresso in mind, for home baristas and coffee shop pros, but it works brilliantly for slow coffee too.

- **Easy tracking of brew time** for precise recipes
- **Switches off automatically** when not in use
- **Five user modes**
- **Switch easily between grams and ounces**
- **Capacity: up to 2,000 g** (70 ounces)
- **Accuracy of ±1 gram**
- **Protective lid and silicone pad** (water-resistant and temperature-resistant)

Ref:
BREWISTA_BSSRB3
RRP inc. VAT: €99,00

C60 BARRACUDA

Comandante

Grind your coffee in half the time!

- **Precise, smooth grind settings** thanks to the Gold Clix technology
- **Large, inclined burrs** for greater consistency and easier grinding
- **Large crank handle** for greater leverage and fast grinding
- **Body crafted from a single block**, offering greater precision, strength and durability
- **45 g capacity (approx.)**
- **Interchangeable catch cup and handle** compatible with the C40, magnet system for the handle
- **Ultra-easy to clean**

Ref:
 COMANDANTE_C60_SW
 RRP inc. VAT: €569,00
 Comes with two catch cups
 (one clear, one pink)

new colour

SCULPTOR 064S

Timemore

Performance, quiet operation and sleek design

- **38 grind settings** for everything from espresso to slow coffee methods
- **Effortless grind adjustment** with an intuitive rotary dial
- **30 g hopper with magnetic lid**
- **60 g grounds container**, magnetically secured to the grinder base
- **Ultra-compact design:**
 10 x 22.5 x 25.6 cm

→ **Patented Turbo 064S burrs:** engineered for highly consistent grinding. With three rows of cutting teeth, these burrs slice through coffee beans quickly and evenly – minimising the fines typically produced by crushing.

→ **Adjustable RPM (revolutions per minute):** motor speed can be set between 800 and 1,200 RPM. Note: Slower speeds help reduce the quantity of fine particles.

→ **Patented "grind knocker"** anti-retention system, effectively clears out residual grounds. No need to spray (Ross Droplet Technique) before grinding!

Ref:
 TME_70TGD060AA101
 RRP inc. VAT: €649,00
 Already available in black

designed for right-handed users

new colour

FISH SMART PRO

Timemore

Your go-to kettle for a steady, powerful and precise flow

- **Two temperature control modes:** slide your finger over the bar or tap the + and - buttons to adjust the temperature
- **Temperature regulator**
- **Ergonomically designed handle:** the forearm, wrist and kettle form a straight line for easier use
- **Air outlet at the edge of the lid:** steam escapes from the edge of the kettle to protect your fingers
- **Automatic switch-off** to prevent damage from dry heating and excess electricity consumption

I need one!

- **Accurate to within one degree**
- **Capacity: 900 ml**
- **Replaces the old Fish Smart**

Ref:
TME_70THP070AA002
RRP inc. VAT: €159,00

STAGG EKG PRO

Fellow

Meet the PRO version
of the Stagg EKG!

What's new compared to the classic EKG:

- **Customisable brew settings** and can be programmed in advance
- **Improved temperature control** (to within half a degree Celsius, for 15, 30, 45 or 60 minutes)
- **Temperature guide** according to altitude
- **Pre-boil function** to disinfect at boil before lowering to your targeted temperature
- **Adjustable audible alarm**
- **Built-in stopwatch** (handy for tea, too!)

- **Colour display** (high resolution)
- **WiFi updates** using the Fellow Updater app
- **In different languages:** French, English and Spanish
- **Celsius or Fahrenheit**

Fiery orange!

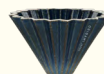

limited edition

Origami x Watanabe's Studio

DRIPPER SUKUMO

Origami

I want the collection!

Ref:
ORIGAMI_78022832
RRP inc. VAT: €35,90

This dripper draws inspiration from the traditional Japanese art of indigo dyeing. The name Sukumo refers to the natural raw materials used in the indigo dyeing process. Each piece is subtly unique, thanks to a reactive glaze that changes during firing. A white spray is applied to the surface, creating a delicate gradient of colour.

REWORK DRIPPER

Origami

Discover the ReWork dripper – a sustainable project from Origami as part of its "ReWork" initiative.

This dripper is made partially from recycled porcelain, helping reduce waste while preserving the brand's high quality standards. Origami gives a second life to drippers that don't pass its strict quality control, reusing them to produce this ReWork Dripper.

With its matte, unglazed finish, the ReWork dripper highlights the natural texture of porcelain. Flecks of recycled ceramic give each one a unique, refined look.

MINO-YAKI DRIPPER

Kalita

1,300 years of craftsmanship
in a dripper – for a truly
unique brew!

Mino ware has been produced for over 1,300 years in Japan's largest ceramics region: Tōno, in Gifu Prefecture. This historic area encompasses renowned pottery towns including Tajimi, Toki, Mizunami and Kani – each celebrated for its exceptional ceramic traditions.

These stunning drippers are **crafted in the city of Dachi**, Toki, and **proudly feature the Dachi stamp** engraved on the base.

They're finished with a Yōhen glaze, which transforms in the kiln, shifting in tone and texture during firing – **each dripper emerges with its own distinctive hue**, making every piece **one of a kind**.

I want the
collection!

Ref:
Pink: KALITA_02103
Blue: KALITA_02105
RRP inc. VAT: €39,90

Its 12 petals mirror the shape and ridges of the V60

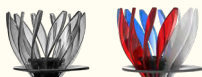

SUIREN DRIPPER

Hario

A mesmerising brew!

The SuiREN features removable “petals” that easily clip onto the base ring. Fully detachable, it’s ultra-portable and ideal for brewing on the go!

Ref:
Transparent black: HARIO_VDSU-02-TB
Red white blue: HARIO_VDSU-02-TRI
RRP inc. VAT: €41,90

I want the collection!

Recipe by Charity

Dose: 14 g of coffee (medium grind)
Water: 190 g at 93 °C
Extraction time: 3:00

Charity’s tip:

This is a straightforward recipe that works well with most coffees. The only variable you may want to tweak is the grind size. No need to worry too much about pouring in multiple stages or opening and closing the Switch during brewing.

Charity, Q Grader,
Brewer’s Cup Champion
2022 and 2024

Brew guide:

1. With the Switch valve closed, pour in 70 g of water.
2. At 0:45, pour again until you reach 190 g total.
3. Open the valve at 2:30.
4. Remove the dripper at 3:00.

available
from
April

MUGEN SWITCH DRIPPER

Hario

Two of Hario’s
signature methods,
combined in one!

Dual brew modes: switch seamlessly between drip and immersion.

Optimised design: star-shaped ridges ensure even extraction and improved flow control. The filter fits snugly against the dripper walls.

Built to last: crafted from resin for excellent heat retention, and stainless steel for long-lasting, reliable performance.

"NEW STANDARD" BREWER

Miir

A coffee maker that offers a smart design, and seamless function

- **Large capacity:** 1 l
- **Made from durable 18/8 stainless steel**
- **Lifetime guarantee** against manufacturing defects
- **With each purchase, you support a project** (check out the code engraved underneath the pot to find out which one)

“

JB's verdict

key accounts manager – equipment

What stands out for me is the heat retention – it's basically a thermos. But I also love that the carafe can be customised. I'm also a big fan of the design!"

See page 34 for our full filter range

Enjoy great coffee wherever you are – just add the Leakproof 360° lid.

- Place the lid directly on the carafe to keep warm
- Detach the upper part (the filter holder), secure the lid, and take your coffee with you!

Ref:
Cafetière : MIIR_CARISVOS002
RRP inc. VAT: €84,90
Leakproof 360° lid: ref. to come
RRP inc. VAT: €9,90

OTTO

Goat Story

Coffee maker
or design piece?

Meet Otto – a contemporary large-format Turkish coffee pot that pays tribute to one of the world's oldest brewing methods, dating back to the Ottoman Empire (hence the name).

Otto is made for curious coffee lovers keen to explore Turkish coffee for the first time, as well as for seasoned fans who'll appreciate its bold, modern design.

Ref:
GOAT_OSG
RRP inc. VAT: €49,00

Key features:

- **Ultra-simple method**
- **Compatible with all hob types**
- **Large capacity:** brews up to 5 cups (compared to the usual 1-2)
- **Contemporary design:** a modern take on the traditional Turkish coffee pot, typically made from brass, copper or enamel

Compatible
with all heat
sources!

5 FILTERS

WAVE Origami

Precision dripper and filter pairing

Developed by Origami, the Wave filter is designed to fit seamlessly with the 20 ridges that define the iconic Japanese dripper.

Because the paper hugs the dripper's shape so closely, it minimises the space between them – preventing hot water from bypassing the coffee bed.

The result? A clean, expressive cup, even with a shorter brew time.

Key features:

- **Perfectly shaped for the Origami dripper**
- **Reduces bypass**

I'd like to try!

Ref:

50 filters, 2 cups: ORIGAMI_78750957

RRP inc. VAT: €9,90

50 filters, 4 cups: ORIGAMI_78750964

RRP inc. VAT: €10,50

PERMANENT GOLD TONE FILTER

Aeropress

Exceptionally fine filtration

Brew a flavourful, full-bodied cup with AeroPress's reusable Gold Tone filter – crafted from stainless steel with a titanium coating. It allows coffee oils to pass through while providing optimal filtration for an ultra-clean cup.

The filter's ultra-fine mesh captures even the finest particles while allowing the coffee's natural oils to pass through, delivering a cup with more body than you'd get from a paper filter, but just as much clarity.

Key features:

- **Eco-friendly, because reusable**
- **Lightweight and travel-ready**
- **Easy to clean** – just rinse and dry
- **Compatible with original AeroPress brewers** (standard size)
- **Patented design**
